PROFESSIONAL SUMMARY

BCA graduate with hands-on experience building web and Python projects, including a live interactive portfolio site and a desktop cafe management system. Comfortable across Python, C++, and SQL, with working knowledge of HTML, CSS, and JavaScript. Quick to pick up new tools (currently exploring AI-assisted development with Cursor) and looking for an entry-level software/IT role to grow into a strong engineer.

PROJECTS

Personal Portfolio Website | *Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Lucide, Vercel*
Live: https://portfolio2-indol-theta.vercel.app/

- Built and deployed a responsive, interactive personal portfolio site using Next.js, React, and TypeScript to showcase profile, skills, and project work.
- Styled the UI with Tailwind CSS and added smooth, engaging animations with Framer Motion, using Lucide icons for a clean, modern visual language.
- Structured the app with reusable React components for cross-device responsiveness and deployed it on Vercel for fast, reliable hosting.

Hangman Game | *HTML, CSS, JavaScript*

- Built a browser-based Hangman game with JavaScript-driven game logic, win/loss state handling, and letter-guess tracking.
- Styled the game board and UI with custom CSS for a clean, responsive play experience.
- Structured the codebase across separate HTML, CSS, and JS files for readability and easy extension.

Cafe Management System | *VB 6.0, MySQL (Oracle 11g)*

- Developed a desktop cafe management system in VB 6.0 with a MySQL (Oracle 11g) backend to handle orders, billing, and inventory records.
- Designed the database schema and forms for menu management, order tracking, and generating bills.

SKILLS

- Programming Languages: Python, C++, SQL
- Web Development: HTML, CSS, JavaScript (foundational)
- Tools & AI: Git/GitHub, Cursor, Gemini, ChatGPT
- Soft Skills: Communication, problem-solving, time management, adaptability, teamwork
